

# Nathalia Chávez Nieme

## FRONT - END DEVELOPER

Professional athlete who fell in love with the world of technology and code.

I became a passionate developer interested in creating new ways of seeing the tech world, focused on agile methodology, creativity, innovation and above all on teamwork.

### EDUCATION:

**Santiago, Chile**

2020

**Front - end developer**

Laboratoria

**Santa Cruz, Bolivia**

Without concluding

**Medicine career**

René Moreno Autonomous University

### CERTIFICATIONS:

**Santiago, Chile**

2020

**English Certificate as C1 ADVANCED**

EF SET

**SCRUM foundation profesional certificate**

CertiProf

### PROFESSIONAL EXPERIENCE:

#### ONG CLEFT

Organization made up of health professionals from the cranio-facial malformations unit of the Dr. Exequiel González Cortés Hospital.

**UI/ Front - end developer**

**Santiago, Chile**

Mar 2020 - Sep 2020

#### E-learning course platform project

- Prototyped, structured and developed the platform.
- I led the implementation of SCRUM for the first time in the work team for the execution of the project.
- I used cloud database, for registration, content, and multimedia.

#### Teletherapy project through digital games

- I designed, prototyped and developed simple and dynamic games with tests in children (1 - 5 years).
- I developed two interactive offline guides for use and play for parents and children.
- I stood out for creating an innovative product, designed for the user, with a unique and outstanding concept thanks to creativity.

### PROJECTS:

#### Laboratoria

##### Technologies:

**React Js, Firebase, HTML5 y CSS3**

- I developed a program that facilitates the flow of orders between waiter and cook.
- I added options such as: increase, change and elimination of products, in order to deliver orders in an orderly and efficient way.
- I highlighted the tablet format and an original design for a unique user experience.

#### THE CAKE HOUSE

Bakery app

### CONTACT INFORMATION:

#### Email:

nathaliachn@gmail.com

#### Phone:

(+56) 9 33153562

### HABILIDADES:

#### Técnicas:

- JavaScript
- HTML5
- CSS3
- React Js
- Node Js
- AJAX
- Git/Github
- Firebase

#### Diseño:

- Figma
- Ux
- Ui
- Scketch
- Maze
- Invision

#### Soft skills:

- Teamwork
- Leadership
- Agile (Scrum)
- Adaptation
- Planning

### LANGUAGES:

- English: Advanced C1
- Spanish: Native

### HOBBIES:

- Cook
- Production of craft beer
- Sport
- Trekking
- Photography

### GITHUB:

- I invite you to see my projects, scan!

## LOFCHE:

Collaborative  
social network

### Technologies:

**JavaScript, HTML5, CSS3, Jest, Firebase, Maze**

- I programmed a SPA - responsive, which allowed the user to create an access account and log in with her. I used Firebase for the database and authentication.
- Upon entering, the user is able to: create, edit, delete and like the publications.
- I designed, modeled and prototyped the application.

### Technologies:

**JavaScript - Node Js - NPM - External libraries.**

- I built a library installable through NPM and executable through Node Js from the console, the CLI was also used as a tool.
- The library is able to read and analyze files with .md extension, to verify the links that contain and report statistics about them: total number of links, Invalid links and unique links (not repeated).
- I used http status codes for the validations.

## ACHACHAIRU BREWERY

Credit card validator

### Technologies:

**JavaScript, HTML5, CSS3.**

- Create a program capable of validating a credit card, using Luhn's algorithm.
- This interface has a data form for the customer that allows to receive the card number and thus validate. If the card number is correctly verified, a purchase can be made and completed.

### Technologies:

**JavaScript, HTML5, CSS3, Jest, Maze.**

- I built a web page aimed at fans of the Harry Potter saga where the main objective was to manipulate a data set.
- I managed to create an interactive interface, which allows the user to play with the possibilities. I visualized, filtered, and ordered data in different ways to create a dynamic, entertaining, and useful experience.

## THE GOLDEN SNITCH:

Data manipulation

## PROFESSIONAL SPORT: ( 2004 - 2018 )

In my professional career I developed as a Javelin and shot put thrower, in which I stood out for:

- Bolivian departmental and national champion for 10 consecutive years.
- Current Bolivian national record holder for bullet and javelin.
- Award for the best athlete of the year for 5 consecutive years.
- South American, Latin American and world level competitions, obtaining in my last competitive years medals and awards in Chile and the world.
